Project Details: NAeG/14-15/00106

Project id -	NAeG/14-15/00106
Name of The Project	ANMOL
Category of Award Applying for	Innovative Use of ICT by State Government PSUs/ Cooperatives/Federations/Societies
Date of Launch	16-01-2013
Summary/Objective of the project	adoptionmp.in : Anmol is the countrys first state level e-initiative for monitoring children residing in Specialised Adoption Agency (SAA) across various centres in the state. Anmol is about ensuring transparency and trustworthiness in the SAA functioning and bridging gaps between parents interested for adoption and the centre from where the adoption is intended. Anmol is a multifunctional e- initiative which covers Integrated Child Protection Scheme, Adoption, Foster Care and sponsorship scheme on its panel. It has been developed with an objective of benefitting the children staying at various centres and facilitates willing parents for adoption of suitable child. Anmol is a single window centre that provides information on the status of children, procedure for adoption, informs parents about their status on waiting list, provides information on availability of children according to their needs and tracks children status by gender. Monitoring of special cases and target monitoring is now possible. Communicating with and contacting adoption agencies has now become very fast, all administrative orders and information are available through ANMOL. Monthly and quarterly information on adoption and waiting list status, Prospective Adoption Parents (PAP) and children is available in one click with 24-hour helpline facility. The queries are handled at a faster pace. Anmol helps in maintaining complete data base on children staying in various centres and parents who have applied for adoption. It also monitors the child on adoption indicators and generates reports for three subsequent years after his/her adoption. Anmol develops healthy linkages and follow ups with State Adoption Resource Agency (SARA) and Central Adoption Resource Agency (CARA). Anmol has a well-designed system of tracking childs status right from its entry point at Child Welfare Committee (CWC). It fast tracks matters related to adoption and other forms of non-institutional care including Sponsorship and Foster Care at the State level and functions at the State level Resource Centre for coordinating, monitoring and developing the adoption programme in the State. Some of the objectives of Anmol are:- Ensuring transparency and trustworthiness in SAA functioning. Bridging gaps between parents interested for adoption and the centre from where the adoption is intended. Monitoring of special cases and target monitoring. Developing interface with adoption agencies to fast tracking the adoption process. Tracking the children status by gender and age. Tracking the status of child staying in homes. Developing strong interface with every home across the state. Tracking the status of families registered for adoption. Interlinking every home to ensure expeditious delivery mechanism. Keeping citizens updated with procedures and amendments. Developing reports for analysis for management. Enabling management to ensure transparency in the process of adoption. Providing easy access to citizens.
Beneficiary of the project	The children of today are the future of tomorrow this statement assumes special significance in our context as children (0-14 years) comprise one third of the total population in this nation. Every child should get a healthy environment, to shine in all spheres of life. Orphans are one of the less blessed segments in the major segment of future builders of the nation. Anmol covers information on all parents who have registered themselves for adopting a child. It also covers information on all children staying at various homes across the state. Anmol has resulted in reducing the long waiting list and provided space for management to develop a strong interface between all the homes across the state. Anmol caters to the resolution of cases in a very effective manner. The population is segregated in terms of age of parents and children. Anmol has a unique feature of tracking the entry of child by local authorities, Police, and public. It also facilitates the process of tracking the growth of children once he/she is admitted to a particular home. Their health, education and skill development are being taken care of by the home and tracked effectively by Anmol. Anmol has its coverage across the state through 38 Shishu Grah and 20 Bal Grah. All these homes are well connected with Project Anmol to fast track the adoption process and clear the long waiting list of parents willing to adopt a child. Prior to Anmol the parents were supposed to register themselves in a particular home and would wait to adopt a child from the same home. The parents registered with one home could not access child from other homes where children were available. This resulted in creating long waiting list of both parents and children. Anmol covers the information on

the all PAPs applying for adoption and the children staying in different homes. The homes are so established that they cover the entire population of the state.

Details of Project Head

Name	Ms. Kalpana Srivastava
Designation	Member, Secretary
Gender	Female
Address	Jawahar Bal Bhawan Near IInd Stop, Tulsi Nagar BHOPAL
Pincode	462003
State	Madhya Pradesh
Phone Number	07552551331
Mobile Number	9425012310
Email-ID	kalpana0092@gmail.com

Details of team members, if any, other than Project Head:-

Name(1st team member)	Mr. B. R. Naidu
Designation(1st team member)	Principal Secretary
Name(2nd team member)	Ms. Prema Sethi
Designation(2nd team member)	Joint Director
Name(3rd team member)	Mr. Harish Khare
Designation(3rd team member)	Deputy Director
Name(4th team member)	Mr. Sharad Saxena
Designation(4th team member)	Jr. Consultant
Name(5th team member)	Mr. Rishi Dubey
Designation(5th team member)	Matron
Name(6th team member)	Mr. Saurabh Mishra
Designation(6th team member)	Programme Manager
