<b>Summary/Objective of the project</b>	e-Uparjan helped in streamlining the process of procurement and thereby helped in free and transparent procurement of food grains. However, there had been a loophole in the logistics part wherein the transports of the food grains from the procurement centres to the godowns were monitored manually. Online system is being used for this purpose. As soon as the truck is dispatched from procurement centre, the same is uploaded on the server by the runner in the e-Uparjan website. The same details can also be seen by the operators sitting in the godown points who make the entry in the new web link once the truck reaches the godown.
