Name of The Project	E-Governance in Seoni District
Category of Award Applying for	Best District level initiative in citizen-centric service delivery through ICT
Date of Launch	01-01-2013
Summary/Objective of the project	<p>It is essential that the services of the government should be provided through the gradual stages of E-Governance. The Seoni District is doing well in E-governance with a common goal providing better Citizen Services with ICT enabled service Delivery. Instead of going for investing time and energy for implementing e-governance initiatives for short term we have supported Government Information Systems to provide actual benefit to the stakeholders of the department and citizen of the district, This move towards e-Government has delivered tangible benefits to the department and citizen of the district. Advancing ICT-enabled public services delivery mechanism is the goal of district administration including ICT infrastructure development. Seoni district has implemented various state levels Information system with flying colors such as E-Uparjan for (Paddy & wheat), MP E-district, SAMAGRA Portal, Landrecords, SECC, NADRS etc. this has benefitted the concern department and citizen of district in service access. Public Services Grievance monitoring, Jansunwai and TL paper are being monitored through an online software and matters are disposed with concern field level officer using desktop VC. We have Identified e-Government Solutions for efficient administration and friendly public service delivery up to the block level by implementing video conferencing for day to day monitoring of schemes and public grievances redressal. We have implemented various state mission mode projects on priority basis with ensured Involvement of CSCs at greater extent in implementation of e-governance project. Every village in the district is getting ICT service directly either through government office or Lok Seva kendra/CSC. Due to successful implementation of the projects the overall service delivery mechanism has changed. Many established process of service delivery is now a part of history. Time, energy and money have been saved due to availability of services at the door steps of the villagers with greater transparency and reduction in no of visits of the citizen.</p> <p>1.
