'eMojni' Application Software

5. Nature of the project :

IT application software for handling and management of applications for land parcel measurement

6. Category of Award Applying for"

OUTSTANDING PERFORMANCE IN CITIZEN CENTRIC SERVICE DELIVERY

7. Objective of the Project : (Please provide the brief summary of the project being nominated for the National Award for eGovernance along with salient features (in

Mojni (Marathi) stands for Measurement. eMojni application is dedicated to online application for measurement of Land Parcels by farmers and citizens of Maharashtra.

Measurement of land parcels is one of the core functions of land records department. The hassles faced by citizens in the hands of local department officials to get their land parcels measured in a timely and professional manner led to the conceptualization of this initiative. Citizens had to make multiple visits to local department offices for getting dates of measurement and to get certified copy post land parcel measurement. Also, there existed undefined wait time for the citizens for documents which was impacting the image of the department and was also a troublesome for the citizens. Many times there used to be no action on measurement cases post application submission. Internally, the allotment of Mojni work amongst the surveyors was unequal wherein one surveyor would be allotted 20 cases for the month whereas another may have just 2 for the entire month. No alert mechanism or acknowledgement was in place for the citizens at the time of application submission which could ensure them the guarantee of service delivery.

500 words approx)

In order to overcome the above issues, standardized software called eMojni was implemented in 2012 with the following major objectives:

- *Timely completion of the land measurement activity post receipt of request application*
- *System generated receipt which provides details about date of survey, name of surveyor along with his mobile and land line number of the office*
- *Proper and equal allocation of work to all departmental offices.*
- *System calculated measurement fees, System generated challans for depositing measurement fees*
- *System generated receipts for measurement fees paid*
- *Statewide MIS report ensuring compliance in field level activities.*
- *System generated Mojni Register, tour programme of surveyor, measurement register, generation of mutation register (service for internal stakeholders) etc.*
- *Detailed MIS reports to understand the state of affairs at each office, district, division*

8. Date of Launch of Project (please see para 6.2 for eligibility of the project with reference to launch date)

(i) For all categories except Incremental Innovation((dd/mm/yyyy): 01/01/2012
